GLOBAL TRADE | PROJECT PROMOTION.

A BRIEF INTRODUCTION

Ozark Global Opportunities Ltd is an Irish based company specialising in global product trade and project promotion. We are based in Ireland and operate globally.

Ozark Global was formed in 2010, fuelled by a conversation on how what one person throws away is another man's treasure. This conversation ended up in a challenge being put forward to prove how this was so. From here the idea was sown and a sustainable business was born. When it comes to food and food preparation, we waste a lot. These items can sometimes be supplied into other markets where they hold a much higher value point. The market is catching on and is growing fast. We started with Chicken feet, purchasing from plants here in Ireland and are now supplying to processing plants in Hong Kong and Vietnam. The list of products we offer is now expanding as is our markets.

We are primarily concerned with trade in commodities, edible animal by-products as well as non food items. We pride ourselves our tight supplier base that provide sought after, high quality products on both an ongoing and demand basis.

We regard our commitment to our customer and task in hand as our strongest attribute and as such our business is built on reputation and strong repeat business.

Our unique selling point: We consistently strive to increase our supplier base to form a strong, quality and reliable supply source of very high quality world class products, primarily Irish, directly to our customers plant or port of choice. Our primary supply base is the Island of Ireland, with key supply contracts and relationships with fully EU approved and quality controlled slaughter plants throughout the country. In addition to Ireland we also source product from UK plants and the rest of Europe.

With the recent press coverage of the Irish trade delegation for Irish food products led by our Minister for Agriculture there has been a large increase in the popularity of Irish produced goods, and we are now recognised as a world leader in food production. We intend to continue our efforts to forge long term meaningful relations with our Chinese partners, as well as our product offering.

- 农业部长所率领的爱尔兰食品贸易代表团在最近新闻媒体的出现使爱尔兰食品备受欢迎，同时也确认了爱尔兰食品的世界领先地位。**我们希望在提供高品质产品的同时会继续努力和我们的中国合作伙伴建立长期有意义的合作关系**。
